
Maziar Zahedi Majd

Bolton, Greater Manchester | 07383882939, | maziarmajd@gmail.com

Professional Summary

A diligent and enthusiastic web developer with an eye for detail, driven to deliver the highest quality. An efficient and collaborative team member, mission-oriented and organized, and able to learn new skills quickly and offer exceptional analytical skills with a proven ability to function well in fast-paced business environments.

Experience

FULL STACK DEVELOPER | 02/2021 - Current

Code Your Future, CYF - Manchester

- Used a variety of back-end and front-end programming languages including HTML, CSS, Javascript, Node.js, React, and SQL, to build a working app for Code Your Future.
- Working on different projects in a demanding environment and enhanced my aptitude for learning new skills.
- Learned and practised Agile Methodologies in a team environment, and developed my soft skills such as teamwork, resolving issues, pair programming, and presentation
- Learned to work with GitHub and Git and terminal for different projects.
- Participating in weekly Codewars' Katas improves my problem-solving abilities.
- Enhance my knowledge of Quality Assurance (QA) and Cypress testing, including box testing, manual and automation testing, performance testing, integration testing and security testing and Identifying, reporting, triaging and fixing bugs.
- Created responsive design layouts using JavaScript and JQuery, aiding smooth customer experiences.

EXECUTIVE MANAGER | 04/2017 - 09/2019

Barike Cafe & Gallery - Babolsar, Iran

- Led a team of 7 employees and fostered an open atmosphere that allowed all team members to communicate freely
- Having to learn new skills quickly was fostered by the demanding environment of the café
- Motivated staff to execute an exceptional level of service, leading to a direct increase in loyal, repeat customers.
- Enabled outstanding front-of-house service, recruiting and training high-performing baristas and waiting staff.
- Assisted with exhibition strategy development including the management of a submissions programme for both emerging and established artists.

ARCHITECTURAL SUPERVISOR | 04/2016 - 04/2017

Ekbatan - Sorkhrood, Iran

- Coordinated with 5 teams to solve problems according to project schedules and goals
- Meeting project deadlines and overcoming challenges associated with the project
- Accurately tracked and documented work productions, providing detailed breakdowns of daily tasks.
- Reviewed and interpreted technical drawings and defined tasks and activities to deliver designed structures.

Project

CYF Developer Planner

Jan 2022 - Feb 2022

Developed a web app platform to keep track of CYF graduates' development plans.

- As part of an agile team, delivered a web application based on document requirements and transferred them to the actual application through code quality procedures such as Pull requests and code reviews
- Designed and build wireframes using Figma.
- Implemented plan discussion thread feature with role-based access control by using React and Material UI for design and Axios for HTTP requests.
- Extended our REST API with Express.js.
